

**Miguel Cabrera**

GFGC Board Member

Miguel is a Professor in the department of Crop and Soil Sciences at the University of Georgia. He holds a BS in Agronomy from Universidad de la Republica (Uruguay), and M.S. and Ph.D. degrees in Agronomy from Kansas State University. While growing up in Uruguay, he worked on a 2000-acre family operation that included cattle, sheep, and crops such as wheat, barley, corn, sorghum, soybean, and sunflowers. His current responsibilities in the department of Crop and Soil Sciences include serving as Graduate Program Coordinator, teaching courses in soil fertility and nutrient cycling, and conducting research on agronomic and environmental issues related to the use of organic and inorganic fertilizers in grasslands.
