

Phillip Brown

GFGC Ex-officio Board Member

Philip works as a Grassland Conservationist with the Natural Resources Conservation Service (NRCS). He has served in this role since 2008. He assists livestock producers and other NRCS personnel with the design and implementation of grazing management plans. His background is in grazing management, wildlife management, and watershed assessment. He holds a Bachelor of Science in Biology from Georgia College and Master of Forest Resources/Natural Resources Management from UGA Warnell School of Forestry and Natural Resources.
