

**2022 AFGC Virtual Annual Meeting Agenda**  
**January 18-19, 2022**  
**(Sessions will be available OnDemand for 90 days)**  
**(Times are Eastern Standard Time)**

**January 18, 2022—Tuesday**

12:00pm-12:15pm ***Opening & Welcome***

12:15pm-12:45pm **Oral Volunteer Presentations**

- Incorporating Perennial Forages into Southern Row Cropping Systems – Eric Billman
- Crabgrass Re-Seeding and Grazing Management Demonstration P – Jeremy Huff

1:00pm-1:15pm USDA-NRCS Awards presented by Tom Hilken, National Grazing Specialist

1:15pm-3:30pm **Workshop: Innovations in Conservation Planning on Grazing Lands**

*Held in collaboration with USDA NRCS*

Moderated by: Kevin Ogles, USDA NRCS

The objective of the workshop is to share successful grazing management strategies and tools for improved grazing land health. A Q&A session will follow the presentations.

Presentation topics are as follows:

- *Bale Grazing* (winter feeding on pasture/cropland to manage and build fertility/productivity) – Jeff Duchene (NRCS MN)
- *Grazing of Annual Cover Crops for Improved Soil Health* – Suzette Truax (NRCS PA)
- *Benefits of Partnerships to Promote Rotational Grazing* – Susan Parry (NRCS PA)
- *KY GRAZE Tool* – Adam Jones (NRCS KY)

(Qualifies for 1.5 CEU)

**January 19, 2022—Tuesday**

1:15pm-1:30pm ***Welcome***

1:30pm-3:00pm **Workshop: TBA**

Coordinated by: Leanne Dillard

(Qualifies for 1.5 CEU)

**Workshops Available on Demand:**

**1. Workshop--Ecosystem services: New business opportunities for grassland managers**

*Sponsored by Corteva Agriscience*

Coordinated by Scott Flynn, Corteva Agriscience

**2. Workshop—Forage Production in Water Limited Environments**

Coordinated by Keith Harmony

**3. Workshop—Winter feeding: Hay and supplementation**

Coordinated by Jaymelynn Farney, Kansas State University

**4. Workshop—Regenerative Ranching and Applied Grazing Management**

Coordinated by Hugh Algoe, Noble Research Institute

**5. Workshop—Soil Health and Carbon Sequestration in Forage and Grazinglands**

Coordinated by Alan Franzluebbbers, USDA-Agricultural Research Service

**6. Workshop—Grazing cover crops and crop residues**

Coordinated by Mary Drewnoski, University of Nebraska

**2022 AFGC Virtual Annual Meeting Agenda**  
**January 18-19, 2022**  
**(Sessions will be available OnDemand for 90 days)**  
**(Times are Eastern Standard Time)**

Oral Presentations (OnDemand)

1. Using Social Media for Forage Education and Promotion Presented – Lisa Baxter and Jennifer Tucker
2. Reaching Georgia Forage Producers in a Virtual Environment – Lisa Baxter
3. Extreme Summer Drought Impacts on Old-Field Forage Production and Nutritional Quality – Amber C. Churchill

Poster Presentations (OnDemand):

- 1.) Forage Production and Nutritional Quality of Tall Fescue and Alfalfa Under Long Term Warming and Severe Drought – Karen Catunda
- 2.) Chlorophyll fluorescence as an indicator of forage plant stress – Sarah Goslee
